

Outline of Japan's flagship projects of the G7 PGI

- All countries eligible for ODA

Promoting Sustainable Energy

Wind power plants

Enhancing resilience of Supply Chain and Connectivity in transport and digital

Transportation networks

Accelerating Climate Actions for Adaptation and Mitigation

- Facility for Climate actions in the countries vulnerable to climate change (ACCESS)

Enhancing food security

- Facility for supporting agricultural Supply chain and Food security Enhancement (SAFE)

Advance gender equality and equity

- Facility for improving financial access of vulnerable people including women and youth (FAFI)

Japan's flagship projects of the G7 PGII

- Promoting Sustainable Energy
- Accelerating Climate Actions for Adaptation and Mitigation
- Enhancing resilience of Supply Chain and Connectivity in transport and digital
- Enhancing food security
- Advance gender equality and equity

Egypt

- Wind power plants

Bangladesh

- Transportation networks

India

- Transportation networks

Philippines

- Transportation networks

Vietnam

- Wind power plants

All countries eligible for ODA

Promoting Sustainable Energy

Wind power plants

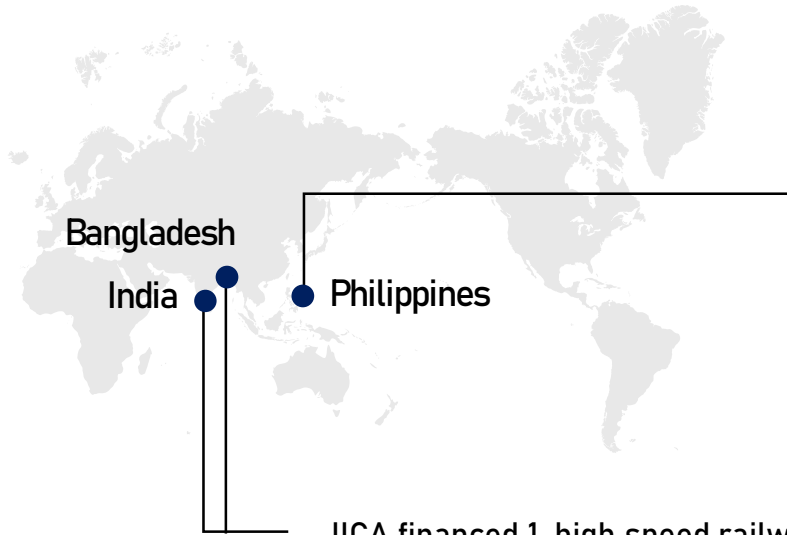

The Japan International Cooperation Agency (JICA) financed USD 25 million for the construction of an 88 megawatts wind power plant in Ninh Thuan province in Viet Nam. This finance supported mobilizing finance from private banks and companies in collaboration with Asian Development Bank (ADB). This project supports Just Energy Transition Partnerships (JETPs) in Vietnam.

The Japan Bank for International Cooperation (JBIC) financed the construction of two 500 megawatts onshore wind power plants (USD 281 million and USD 240 million) in Ras Ghareb, Egypt. This finance supported mobilizing finance from private banks and companies in collaboration with the International Finance Corporation (IFC) and the European Bank for Reconstruction and Development (EBRD). The Nippon Export and Investment Insurance (NEXI) provided insurance for the two projects (USD 200 million and USD 163 million) to support commercial bank loans.

Enhancing resilience of Supply Chain and Connectivity in transport and digital

Transportation networks

JICA financed the North-South Commuter Railway in Metro Manila, the Philippines (USD 2.8 billion) in collaboration with ADB

JICA financed 1. high speed railway between Mumbai and Ahmedabad (USD 2.2 billion), 2. metro railway in Patna (USD 720 million), 3. trans-harbour link road in Mumbai (USD 224 million) in India; 4. mass rapid transit (MRT) Line 5 in Dhaka (USD 974 million) in collaboration with ADB, 5. highway between Chattogram and Cox's Bazar (USD 407 million), 6. enhancing railway between Joydebpur and Ishurdi (USD 31 million), 7. development of Matarbari Port (USD 769 million) in Bangladesh.

Outline of Japan's flagship projects of the G7 PGI

- All countries eligible for ODA

Accelerating Climate Actions for Adaptation and Mitigation Facility for Climate actions in the countries vulnerable to climate change

JICA launched a debt facility ACCESS (Facility for Accelerating Climate Change Resilient and Sustainable Society) up to USD 1.5 billion to finance infrastructure projects and companies accelerating climate actions for both adaptation and mitigation in the countries vulnerable to climate change including the Pacific region. This facility will promote private capital mobilization through JICA's direct lending to local companies or via local financial institutions, in collaboration with partner financial institutions such as MDBs, DFIs and G7 private banks.

Enhancing food security Facility for supporting agricultural supply chain and Food security Enhancement

JICA launched a debt facility SAFE (Facility for Supporting Agricultural supply chain and Food security Enhancement) up to USD 1 billion to enhance food security. This facility will promote private capital mobilization through JICA's direct lending to agri-business companies or via financial institutions, in collaboration with partner financial institutions such as MDBs, DFIs and G7 private banks.

Advance gender equality and equity Facility for improving financial access of vulnerable people including women and youth

JICA launched a debt facility FAFI (Facility for Accelerating Financial Inclusion) up to USD 1.5 billion to finance to local banks providing financial services to Micro-, Small and Medium-sized Enterprises (MSMEs), low income class and women. This facility will promote domestic capital mobilization for improving financial access of vulnerable people, in collaboration with partner financial institutions such as MDBs, DFIs and G7 private banks.
