

Building on lessons from the COVID-19 pandemic, which has unprecedentedly affected not only people's health but also the global community, economy and security, the G7 commit to (i) **developing and strengthening the global health architecture (GHA)**, to (ii) **contributing to achieving universal health coverage (UHC)**, and to (iii) **promoting health innovation**. **The G7 demonstrate their united determination and actions to contribute to global health.**

I To develop and strengthen GHA for future health emergencies, the G7..

- ❑ Enhance political momentum toward **leader-level governance** for health emergency PPR, toward UNGA HLM and WHO CA+, stressing the leading role of WHO
- ❑ Promote financing initiatives such as **collaboration between Finance and Health Ministries, the Pandemic Fund, surge financing** based on **the "G7 Shared Understanding on Enhanced Finance-Health Coordination and PPR Financing"**
- ❑ Contribute to and sustain momentum on **the negotiations of the WHO CA+** and **targeted amendments to the IHR**, guided by equity and **together with all stakeholders**
- ❑ Strengthen and maintain **sufficient and high-quality human resources for health worldwide at all times**, including consideration of Global Health Emergency Corps

II To achieve more resilient, equitable and sustainable UHC, the G7..

- ❑ Address **various health challenges significantly set back by the pandemic**, such as infectious diseases ((i.e.HIV/AIDS, TB, malaria, neglected tropical diseases (NTDs), polio), non-communicable diseases etc.(i.e.mental health conditions, nutrition, WASH), life course challenges (i.e. maternal and child health, SRHR, healthy ageing), antimicrobial resistance (AMR)
- ❑ Highlight **G7's public-private financial contributions totaling more than \$ 48 billion** and call for further domestic resource mobilisation and private investment
- ❑ Endorse **the "Triple I for Global Health"** to encourage **impact investment** in global health
- ❑ Release **the "G7 Global Plan for UHC Action Agenda"** and note the importance of a global hub function, including for financing, knowledge management, and human resources on UHC

III To address health challenges by promoting health innovation, the G7..

- ❑ Accelerate **R&D to respond to pandemics and AMR** and **implement pull and push incentives to accelerate R&D of antimicrobials** with a view to the UNGA HLM on AMR in 2024
- ❑ Announce **the "G7 Hiroshima Vision for Equitable Access to Medical Countermeasures (MCMs)"** and launch **the "MCM Delivery Partnership for Equitable Access (MCDP)"** based on its principles of equity, inclusivity, efficiency, affordability, quality, accountability, agility and speed
